flour | coat

The alco-Preduster type ABM

Standard features

- vibration plate optimises coating of product on whole belt width
- adjustable speed of conveyor belt
- control of coating thickness
- dust-free due to closed construction
- adjustable thickness of lower belt
- surplus coating is blown off and re-circulated
- variable out-feed height
- all bearings made of FDA-approved material
- 4 movable heavy duty wheels with break, rotation 360°
- high operational safety
- cleaning and maintenance can easily be done due to several flaps

Application

The alco-Preduster, type ABM, is designed to coat products with different types of flour, fine-grained spices and sugar.

Products are coated optimally from all sides over the complete belt width and the speed of the belt is adjustable. Surplus coating and dust are returned into a circulating system. Outfeed height is variable in order to pass on perfectly to following machines.

Product examples

small formed products like nuggets, fish fingers, frozen or fresh fish filets, poultry products, tempura products, sweets, bakery products and YOUR PRODUCT.

Options

- suction station for fine dust, station is integrated in circulating system
- top over conveyer for shake off of settled surplus coating

Belt width

- 400 mm
- 600 mm
- 900 mm
